

# TASK 3

## LIFEMAPPER DASHBOARD

PRAGMA 31  
STUDENT HACKATON

# MOTIVATION

We would like to gain experiences and challenge ourselves.

# LANGUAGES

PHP, HTML, Javascript, CSS

# TOOLS

LifeMapper API, Google Cart,  
ATOM

# WHAT WE HAVE LEARNT CHALLENGES

How we design the dashboard and manage data because the data size is very large ,so it take too much time to process the data.

# WHAT WE HAVE LEARNT

## Easiest Part

creating the website because  
we all have background on  
this.

THE RESULT

## AFTER WE DONE

you can see the status and the data that have a problem easier.

# OPINION

At the beginning, the topic details in task 3 are not quite clear for our team ,but the researcher is very nice and friendly ,so we feel very comfortable asking her.
